

CODE FOR RESISTANCE HARMONIZATION

ESA_16.0782

October 2015

The ESA Code for resistance harmonisation has been designed by ESA to improve transparency to vegetable growers.

Vegetable seed companies are recommended to make use of the ESA Code in their catalogues, on their websites and in all other forms of product information

Eggplant rootstock				
Scientific name pathogen ISF	Abbreviation	Races/Strains	Level	Example variety
Verticillium dahliae	Vd		IR	Brutus (Fito)
